Teresa probably wouldn't admit she's in hiding from her own life; she simply feels that being back in her tiny home town will keep her out of trouble. Spending her days painting, she's turned her back on more than her past, she's let go of all her hopes and dreams for the future and while this new life is a struggle, she's determined not to let anyone tempt her into changing course.

But Scarcity wants to know her - Teresa's the only other lesbian in this tiny dot on the map after all, and Scarcity's position in life feels increasingly precarious. She's coming of age and coming out into a world that seems more hostile than welcoming. Things at home aren't all they could be and the more experienced Teresa might be able to offer her a helping hand, and a safe place in which Scarcity can truly be herself.

Teresa's frightened of her though. The girl stirs up too many feelings in her, and she doesn't want to be reminded of needs that are going unfulfilled. It would be much easier if Scarcity would just leave her alone - on her own, Teresa can't repeat her worst mistakes. Unfortunately, what she's doing can barely be called living, and when Scarcity insists on being part of her life, Teresa may have to re-evaluate everything she thinks she knows about herself and the choices she's made .
