Victoria Parker had everything going for her. Well, almost everything. She is an executive at a London firm that's one of the most profitable in the world. She has a killer body, a killer wardrobe and some of the sexiest lingerie in the worldâ€”not that any man sees it. Her professional success is rising like a comet, while her love life is on life support, with no signs of improving any time soon.

Then a big American businessman/cowboy, with dreams of expanding his market into the United Kingdom and Europe, enters her life. Thomas â€œTexâ€• Hastings not only awakens every dormant libidinous nerve in Victoria's body, but so do the two young men he brings with him. The fact they're a decade younger than Victoria only heightens their allure. Can Victoria find lasting fulfillment with a big American cowboy and his two Ivy League assistants?
